TECHNICAL SKILLS

- C++
- HTML
- Python
- Java

LANGUAGE

- English
- Tamil

CERTIFICATION

- HTML
- C++
- Python
- JAVA

SKILLS

- Team Work
- Time Management
- Self Motivator

PROFILE

Aspiring software engineer eager to contribute to a forward-thinking organization by leveraging my technical expertise and problem-solving abilities. Committed to driving innovation and delivering high-quality software solutions while continuously advancing my skills and contributing to the company's long-term success.

EDUCATION

BACHELOR OF TECHNOLOGY

Mahendra Engineering College

Batch: 2022-2026

Percentage: 7.97 CGPA (CURRENT)

HIGHER SECONDARY SCHOOL

Batch: 2021-2022

Percentage: 77.3%

SECONDARY SCHOOL

Batch: 2019-2020

Percentage: 74.6%

PROJECTS

Surveillance System Using Machine Learning

- Developed an intelligent surveillance system using Python and machine learning techniques to detect and recognize objects and activities in real time. Implemented motion detection, person identification, and anomaly detection to enhance security monitoring.
- Utilized OpenCV YOLO for object detection, and deep learning models to improve accuracy. Integrated real-time video processing and alert mechanisms to ensure efficient surveillance.

AREA OF INTEREST

- AI/ML for Robotics
- Full stack Development
- Robotics
- Data Engineer
